

24 July 1974

25X1A

MEMORANDUM FOR: OMS [REDACTED] 25X1A  
SUBJECT : Objective [REDACTED] for FY 1975

25X1A

As requested at the 17 July meeting of the OMS [REDACTED] the following is submitted as comment on Objective [REDACTED] for FY 1975, which has to do with arranging for the CIA Management Committee to examine certain "aspects of the Agency's subculture."

It is suggested that it would be at least reassuring to know that the CIA Management Committee is interested in the work we are planning for them (this objective was proposed by the DD/M&S Plans Staff). Over and above that, it would be helpful if some guidance were forthcoming from that Committee as to which of the suggested areas the OMS should address itself to initially, since there is always the possibility that all four areas suggested would or could not be considered in FY 1975.
